

How to use the wiring diagrams

Look up the relevant electrical function in the index.
Let us say you want to look at the central locking system.
According to the index, the central locking system is found
on page 138.

Here is a schematic presentation of how the components
are connected to each other and their internal
appearance.

Each component has a component designation.
At the end of the manual there is a component
list where you can see what each component
is called.

Wire colours are indicated with letters of the alphabet:

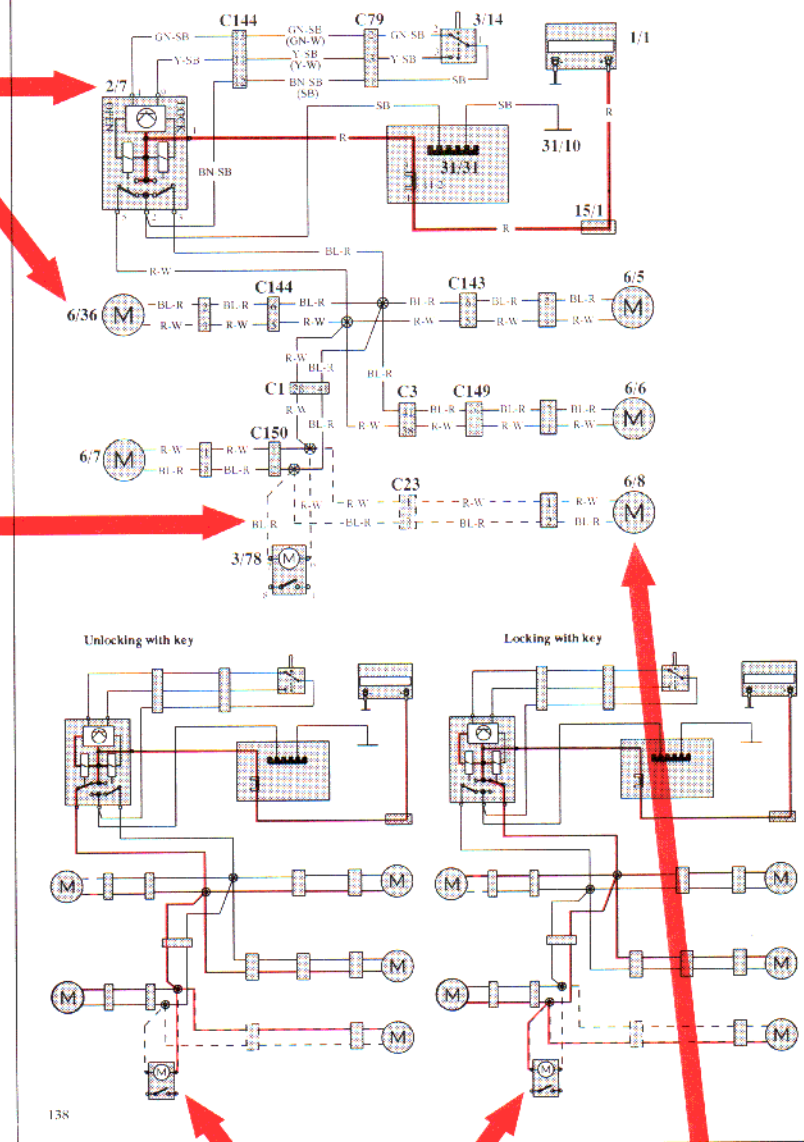

SB = Black	BN = Brown	GN = Green
GR = Grey	Y = Yellow	OR = Orange
W = White	P = Pink	VO = Purple
R = Red	BL = Blue	

BL-R is thus = Blue-red.

Code to colours in the wiring diagram

Central locking

Here you see the voltage under operational conditions.
